

Accounting

Features & Benefits

An effective software package specifically tailored for small businesses that don't need payroll or stock tracking, but do need to track more than money in and money out.

Manage your business more effectively

QuickBooks is much more efficient than spreadsheets, word-processing or paper ledgers. Quickly and easily manage basic tasks like printing cheques, paying bills, generating reports, invoicing customers and tracking expenses. You'll spend less time and money on bookkeeping and paperwork - and have more time to work on other important areas of your business.

Easy to learn and use

QuickBooks has tools to help you get started quickly, answer your questions and guide you through basic setup tasks step-by-step. Organise information about your company, customers and suppliers in one place so it's easy to find when you need it. You will find QuickBooks speaks plain English - it cuts through the jargon by using everyday terms. Even the navigator is designed to reflect the natural workflow of your business.

Instant access to your information

Simply fill out familiar forms such as invoices, purchase orders, receipts and cheques - QuickBooks does the calculations and accounting for you, instantly. It will also automatically update your accounts to reflect each transaction, from writing a cheque to recording a sale.

Better tools to help you manage your business

Compare the performance of your products or services and measure the profitability of different areas in your business. The Company Centre includes reports that help you compare alternatives and analyse your financial position. You can have QuickBooks remind you when it's time to pay bills, print cheques, deposit money in the bank, enter memorised transactions, act on overdue invoices, or act on your personal To Do notes. QuickBooks can also remind you to print forms such as invoices and purchase orders.
