# QuickBooks® 2007/08

Compatible with Vista™

Enterprise

Features & Benefits

An enterprise business solution that is the pinnacle of the QuickBooks range. Includes comprehensive reporting features, simultaneous multi-user capability, multi-company reporting and is multi-site enabled to help manage the growth of your business.

Share data among up to 10 simultaneous users

QuickBooks Enterprise allows up to ten users to work on the company file at the same time, and provides extra capacity for items and lists.

Multi-site and multi-company reporting

The ability to connect your multiple locations and remote workers helps manage the growth of your business. Parent companies and head offices can now combine reports with QuickBooks Enterprise to pull company data from subsidiaries, divisions, or branches.

Have greater control over data

Set user permissions to restrict access to your confidential and sensitive financial information. This feature is especially useful if your business has multiple users of QuickBooks, and you want to restrict access by user to parts of your financial data. QuickBooks allows you to password-protect your closing date. You can easily see any changes made before the password-protected closing date in a convenient report, showing you who has made what changes.

Comprehensive employee management

Gives you easy-to-use tools and the latest tax tables you need to help manage and maintain control of your payroll. The payroll feature saves you time and money by avoiding duplicate data entry and helps to avoid hassles associated with incorrect payroll withholding.

Increased efficiency with advanced tools

Save your business undue costs by utilising QuickBooks email functionality. Invoices, statements, estimates, purchase orders, sales orders, sales receipts, adjustment notes, and reports can all arrive on your suppliers or customers desktop within minutes. There is no need to seperately track your contact lists - you can easily synchronise your contact information with Microsoft Outlook.

New Features

Multiple payment options for your customers*

You can now offer your customers multiple payment options on QuickBooks invoices. Your customers will have the opportunity to pay your invoice at any one of 3300 Newsagencies, online or by phone.

* You must first subscribe to Bill Express

Payroll enhancement

QuickBooks now helps you comply with the Australian Federal Government WorkChoice legislation. You can display Salary Hourly Rate and Leave Accrued information on employees' pay slips, as required by the national code for pay slip information. You also have the ability to enter negative components in a pay to track unpaid working time.

Customise Pay Slips

In response to customer feedback we've given you the ability to customise your pay slips, helping your business look even more professional. You can add your company logo and include friendly and personalised messages to staff.

QuickBooks 2007/08 works on Microsoft Windows 2000/XP/Vista™ operating systems.

"The fundamentals in QuickBooks are very strong…efficient data entry, excellent reporting capabilities and adaptable enough for many different business needs."
