

QuickBooks® 2007/08

Compatible with Vista™

Pro

Features & Benefits

Tracks stock and comes with advanced tools to help you analyse the profitability of key projects. Including all the basic accounting functionality of Plus, it adds advanced productivity tools such as integration to the Microsoft® Office suite.

Increased efficiency with advanced tools

Save your business undue costs by utilising QuickBooks email functionality. Invoices, statements, estimates, purchase orders, sales orders, sales receipts, adjustment notes, and reports can all arrive on your suppliers or customers desktop within minutes. There is no need to separately track your contact lists - you can easily synchronise your contact information with Microsoft Outlook.

Comprehensive employee management

Gives you easy-to-use tools and the latest tax tables you need to help manage and maintain control of your payroll. The payroll feature saves you time and money by avoiding duplicate data entry and helps to avoid hassles associated with incorrect payroll withholding.

Better tools to help you manage your business

Compare the performance of your products or services and measure the profitability of different areas in your business. The Company Centre includes reports that help you compare alternatives and analyse your financial position. You can have QuickBooks remind you when it's time to pay bills, print cheques, deposit money in the bank, enter memorised transactions, act on overdue invoices, or act on your personal To Do notes. QuickBooks can also remind you to print forms such as invoices and purchase orders.

Easy to learn and use

QuickBooks has tools to help you get started quickly, answer your questions and guide you through basic setup tasks step-by-step. Organise information about your company, customers and suppliers in one place so it's easy to find when you need it. You will find QuickBooks speaks plain English - it cuts through the jargon by using everyday terms. Even the navigator is designed to reflect the natural workflow of your business.

Manage your business more effectively

QuickBooks is much more efficient than spreadsheets, word-processing or paper ledgers. Quickly and easily manage basic tasks like printing cheques, paying bills, generating reports, invoicing customers and tracking expenses. You'll spend less time and money on bookkeeping and paperwork - and have more time to work on other important areas of your business.

Pro

New Features

Multiple payment options for your customers*

You can now offer your customers multiple payment options on QuickBooks invoices. Your customers will have the opportunity to pay your invoice at any one of 3300 Newsagencies, online or by phone.

* You must first subscribe to Bill Express

Payroll enhancement

QuickBooks now helps you comply with the Australian Federal Government WorkChoice legislation. You can display Salary Hourly Rate and Leave Accrued information on employees' pay slips, as required by the national code for pay slip information. You also have the ability to enter negative components in a pay to track unpaid working time.

Customise Pay Slips

In response to customer feedback we've given you the ability to customise your pay slips, helping your business look even more professional. You can add your company logo and include friendly and personalised messages to staff.

QuickBooks 2007/08 works on Microsoft Windows 2000/XP/Vista™ operating systems.

"The fundamentals in QuickBooks are very strong...efficient data entry, excellent reporting capabilities and adaptable enough for many different business needs."

Australian PC User, August 2006
